The Southern Mama Cow Breed

South Poll
Grass Cattle Association

13th ANNUAL

FIELD DAY
&

AUCTION

JUNE 25-26, 2021

FACE TO FACE FARMING
104 McREE SCHOOLHOUSE ROAD
TRENTON, TN 38382

Dear Fellow Cattleman,

Welcome everyone to our 13th annual South Poll field day! The popularity and growth of our breed has been phenomenal. With maternal traits and efficient size driving our breeding decisions, I believe South Poll will be in demand for many years to come. For the cow/calf breeder adaptability, fertility and longevity are a lot more important than any growth EPD or any single carcass trait. That's not to say that South Poll won't eat good. By nature they are gentle and the meat is as good, or better than English breeds in shear force and actual taste test. In the end, the thing that makes a breed great is the breeders. Honest, well kept records on the whole herd is the best way to identify the best (most profitable) cows in your herd, the cows that have adapted to your environment, management and grasses. We are blessed with some good breeders who have given the extra time and energy it takes to promote our breed. Come see what we believe to be the best "harvesters" for the southern grass grower!! Talk to our breeders ...look at the cattle...judge for yourself if South Polls have a place on your farm .

Thank you,
Teddy

Welcome to the 13th Annual South Poll Grass Cattle Field Day and Cattle Auction!

Face to Face Farms would like to welcome you to the 13th Annual South Poll Grass Cattle Association Field Day in Trenton, Tennessee. We look forward to seeing everyone.

Welcome to our Farm!

We are so glad to have the opportunity to share our farm with those of you interested in the South Poll Grass Cattle Association! We are not your typical cow/calf producer as our focus is more on the betterment of the breed and not how big you can get the cow and calf. We hope you can learn more about this wonderful breed while you spend these few days with us!

Thank you for taking your time to join us as we encourage education and fellowship with other South Poll enthusiasts!

Sincerely,

Gary and Diane Graves
Face to Face Farms

SALE RULES

1. All interested buyers must sign in at registration & receive a buyer number. Settlement by cash or check must be made with clerk immediately following auction and before cattle are loaded.
2. All animals for sale will be identified by Lot Number.
3. Suggested opening bid price will be \$1,500 on heifers, \$2,000 on bulls and \$2,000 on cow/calf pairs. If animals do not meet minimum, they will be considered "No Sale".
4. All animals will be available for viewing after 9 am on Friday, June 25.
5. Cattle will be sold as listed in catalog at 3 p.m. on Saturday, June 26.
More information will be available sale day.
6. Trucking will be available sale day. Cattle may not be loaded until after conclusion of field day. Cattle may be left at the farm for a reasonable time, if prior arrangements are made with landowner.
7. Any corrections of printed material will be addressed prior to the sale. Announcements made will supersede any catalog information.
8. All weaning age cattle being sold without dam at side, must be weaned 30 days prior to the auction.
9. All sale cattle must be registered by consignor prior to being listed in the SPGCA sale catalog. Registration certificate on each animal will be transferred to the buyer at the association's expense. The buyer should be sure to give the clerk the proper name and address for making transfers.
10. A current health certificate is required on each consigned animal upon arrival. After the auction health certificates will be furnished on all sold animals as required for shipping.
11. Non-virgin bulls or bulls greater than 12 months of age must be Trichomoniasis tested and negative results must accompany the bull upon arrival. These bulls must also pass a breeding soundness exam prior to the sale.
Mail or phone bids will be accepted, but arrangements must be made in advance by calling South Poll Grass Cattle Assn. officials at 256-996-8355.
13. All persons who attend this sale do so at their own risk and owners assume no liability or otherwise for any accidents which may occur.
14. Seller of animal must be a current member of the SPGCA.
15. SPGCA has the right to visually inspect and deny/refuse any cattle delivered for field day auction to maintain the standards expected of our breed.
16. All animals are consigned at the risk of the owner.
17. All animals must arrive at the sale location by 5:00 pm, Thursday, June 24th to allow for sale preparation.

COWBOY AUCTION FORMAT

Each animal to be sold to the highest bidder. All cattle will have a base price as listed on rule #3. If more than one buyer is interested in purchasing a lot, the base price will be raised in \$100 increments until only one bidder is left.

Teddy Gentry

Teddy Gentry, bass player for the county music group Alabama, was born and raised on Lookout Mountain in Fort Payne, Alabama. He, and his wife, Linda, have two children, five grandchildren, and one great grandchild. After receiving his first check from RCA records in 1980 for \$61,000, he purchased 60 acres from his grandfather, which he called Bent Tree Farms.

Teddy started the South Poll breed in 1989 when he got the idea to genetically combine the best traits of four maternal Bos Taurus breeds to form a more heat tolerant animal that would work for his cattle operation. The South Poll is a four way cross of Hereford, Red Angus, Senepol, and Barzona. He wanted an animal with a gentle disposition and would produce tender beef on grass.

Bent Tree Farms is the home of the South Poll. Our cattle are always grass fed and naturally pasture raised.

Bill Hodge

Sustainable Genetics

Sustainable Genetics, LLC, established in 2004, is a beef genetics marketing company dedicated to enhancing profitability in the production segment of the industry. We believe, first and foremost, that a bovine animal was put on this earth to function as a grazing animal. The further we deviate from the grazing principal, the more problems we create. Unfortunately, the industrial agricultural model has created a fossil fuel dependent machine and has ignored Mother Nature's original purpose for this solar powered creature. There are two types of cattle today, corn cattle and grass cattle. Our many years experience has taught us that grass cattle will work in a corn environment; however corn cattle are not sustainable in a grass environment.

It takes crisis to create change and for an industry built on the premise of cheap corn and cheap oil, change is inevitable. The seedstock industry continues on a collision course with reality. The more, bigger, better mentality of the majority of purebred cattle owners continues creating higher maintenance cows the commercial sector cannot sustain. The advent of Expected Progeny Difference's has made it quite easy to breed cattle. The only tools necessary are a sire summary and a checkbook. What most seedstock owners fail to understand is EPD's are only measures of outputs, and the antagonisms associated with selecting for extremes create problems that end up costing the commercial producer.

There are Sustainable Genetics sired cattle on ranches and farms near you. Contact us and we'll put you in touch with the satisfied breeders that have taken that step back to basics.

Greg Brann Synergistic Grazing Management Consulting

Greg received a BS degree in Plant and Soil Science from the University of TN, Knoxville with special emphasis on animal science and landscape design. He worked as the State Grazing Land Soil Health Specialist for 23 of his 40-year tenure with NRCS. Greg is a featured speaker at many conferences and grazing schools around the country.

His private consulting practice, Synergistic Grazing Management, provides land management planning to farmers, ranchers, land preservation organizations, and public land managers. Greg has served as the Technical Advisor to BEHAVE, Tennessee Forage and Grassland Council, and the American Sheep Industry. He has developed land management plans as varied as the 100,000 acres at Fort Campbell Military Base to diversified farms of 25 acres. Looking past symptoms to discover and resolve root issues, his plans provide practical ideas to help in reaching aspired goals.

Greg hosts an annual “Pasture Walk” that brings together farmers, researchers, and ag and environmental specialists to maintain a space for difficult discussions and friendly conversations around synergistic land management.

Greg is well known for his extensive knowledge of soil health, grass and livestock management systems, and plant identification. His deep understanding of plant communities as indicators of land productivity has made him a steady resource for land owners and managers passionate to understand nature’s ability to regenerate land.

With more than 40 years of land and pasture management, Greg has had the privilege of watching his plans transform land under the great care of land managers. More than 200,000 acres have been transformed by his attentive planning.

Sassafras VALLEY RANCH

The Shanks Family
165 Sassafras Valley Lane, Belle, MO 65013
www.sassafrasvalleyranch.com | (573) 578-3945

We know and understand the cattle industry and have the genetics to **simplify** your operation.

We raise gentle, easy-fleshing, moderate-sized South Poll cattle that are selected on fescue for fertility, hardiness, and longevity. "Mother Nature" is our best genetic selection tool!

We are **truly** a low-input operation. Our cattle are raised on forage, hay, and mineral with no additional inputs!

Heifers are managed like cows; No second chances for any females!

We have thriving steer sales to grass-finishers. Only top bulls make the cut!

Bulls | Heifers | Semen | Steers for Grass-Finishers | Katahdin Sheep | Kiko Goats
Delivery Available! Call or Visit Anytime!

The First Hydraulic Corral and still the Largest!

Rawhide Processor

by John McDonald

- Pull on highway at speed limit.
- Fits through any gate your pickup will.
- Stable on uneven terrain.
- Wheels on each panel and electric over hydraulic jack eliminates lifting—saves time.
- Permanent sheeted adjustable alley.
- Frame gates for sorting.
- Transport wheels are permanent, no sliding off the axles and rolling out of the way.

**3 Sizes
Available!**

Rawhide Portable Corral
